Introduction

The primary purpose of the directory is to educate both users and non-users of public and private transportation with information about publicly and privately owned public transit , paratransit passenger carriers and metropolitan planning organizations as well as commuter services and other for-hire services, and their geographic distribution throughout the State. Every effort was made to include all providers.

Arkansas' first transit program got its start as a privately owned operation in Pine Bluff in 1870 followed by a system in Little Rock in the 1880's. The City of Eureka Springs started the first publically owned transit system in 1891 but was discontinued in the 1920's. Modern public transit systems began to immerge in the 1970's, largely with the signing of the Urban Mass Transportation Act of 1964 by authorizing transit programs and providing Federal funding assistance for transit equipment, facilities and operations. Arkansas, more specifically Metroplan, received its first Federal Transit Administration (FTA) funds in September 1965 - \$383,000 for 42 buses.

The Arkansas State Highway and Transportation Department (AHTD) became actively involved in transit programs with the passage of Arkansas Act 192 of 1977. This Act gave the AHTD responsibilities for administering public transportation programs in Arkansas. From this Act, the AHTD became involved with the Section 5310: Enhanced Mobility of Seniors and Individuals with Disabilities and the Section 5311: Nonurbanized Public Transportation programs. During the late 1970's and early 1980's, the AHTD established seven rural transit systems and funded vehicles for non-profit human service agencies providing transportation service to seniors and the disabled. Today there are eight urbanized and nine rural public transit systems providing service in Arkansas. In addition, almost 250 human service agencies receive funds through the AHTD to support transportation services to seniors, persons with disabilities and persons seeking employment opportunities.

Since 1965, Arkansas' transit agencies have received approximately \$517 million of FTA/FHWA funds to support transit planning, training, capital, administrative, and operating activities. Further, approximately \$186 million of State and local funds have contributed to transit operations in the State of Arkansas.

Notice of Non-Discrimination

The Arkansas State Highway and Transportation (Department) complies with all civil rights provisions of federal statutes and related authorities that prohibited discrimination in programs and activities receiving federal financial assistance. Therefore, the Department does not discriminate on the basis of race, sex, color, age national origin, religion or disability, in the admission, access to and treatment in Department's programs and activities, as well as the Department's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the Department's nondiscrimination policies may be directed to Joanna P. Nelson, Section Head - EEO/DBE (ADA/504/Title VI Coordinator), P.O. Arkansas Transit Association

The Arkansas Transit Association (ATA) was incorporated in 1980 as a 501(3) (c) non-profit trade association to provide technical assistance and training for Arkansas's public transit systems. From the beginning, ATA has partnered with the Arkansas State Highway and Transportation Department to advance safe passenger transportation.

Today, ATA has almost 245 members, including seventeen urban and rural transit agencies, community services organizations transporting the seniors or people with developmental disabilities, private passenger carriers, state agencies and industry vendors.

ATA's offices are located in the Arkansas Public Transit Safety and Resource Center in North Little Rock. Built in 2002 with federal and state funding assistance, this award-winning training facility hosts a wide variety of transportation meetings, workshops and seminars.

The Association's nationally-recognized Training Program specializes in passenger transportation safety, and a variety of low-cost courses are conveniently offered to ATA members. Courses are adapted to each agency's specific needs, and great care is taken to deliver updated and relevant material. A current list of training topics can be found on the Association's website.

ATA co-sponsors an Annual Public Transportation Conference with the Arkansas State Highway and Transportation Department and the Federal Transit Administration. This popular event provides timely and informative programs, offers opportunities for networking, and showcases vendors' products and services.

In addition, ATA administers three Drug and Alcohol Testing Program Consortiums for employee testing and helps with policy development, training and legal compliance. Although tests required by the Federal Transit Administration, the Federal Motor Carrier Safety Administration, and those not regulated by the Department of Transportation are conducted separately, the consortium group purchases result in lower costs and superior customer service.

Other association benefits include a Workers' Compensation Self-Insured Trust Fund, internet-based background checks and free traffic violation reports for public and non-profit members.

For thirty-two years, ATA has served its members, proudly advocating for recognition of their hard work and dedication to increasing the quality of community transportation in Arkansas.

Program Information

The Arkansas State Highway and Transportation Department (AHTD) is appointed as the “designated recipient” of Federal Transit Administration (FTA) funds by the Governor of Arkansas. The Public Transportation Programs Section of the AHTD Planning and Research Division is responsible for the programming and administration of federal funds to four different categories as specified by FTA and one state funded program. The five program categories are as follow:

The Enhanced Mobility of Seniors and Individuals with Disabilities Program, Section 5310. This is a newly titled program that consolidated the Section 5317 New Freedom Program into the previously named Section 5310 Elderly Persons and Persons with Disabilities Program. This Federal program provides capital and operating assistance grants to private nonprofit organizations and public entities that provide transportation. AHTD assistance primarily consists of purchasing rolling stock and specialized equipment to transport seniors and persons with disabilities. Operating assistance through the AHTD is limited. This is a statewide program that is allocated approximately \$1,800,000 yearly. The Public Transportation Programs Section determines the eligibility of applicant organizations and orders rolling stock and equipment according to the organizations’ needs.

The Rural & Small Urban Area Program, Section 5311. This program provides capital, operating, and administration assistance to areas with populations under 50,000 persons. The Section 5316, Job Access and Reverse Commute (JARC) program is now consolidated into the Section 5311 program for rural areas. Funds are for transit systems that are open to the public and may support fixed route or demand response systems. There are currently nine rural public transit systems in Arkansas: Black River Area Development (BRAD) Transit located in Pocahontas; Eureka Springs Transit, Eureka Springs; Mid-Delta Transit System, Helena-West Helena; North Arkansas Transit System (NATS), Harrison; Northeast Arkansas Transit (NEAT), Jonesboro; Ozark Regional Transit Authority, Springdale; South Central Arkansas Transit (SCAT), Malvern; Southeast Arkansas Transit (SEAT), Pine Bluff; and Western Transportation System, Fort Smith. This program is allocated approximately \$11,500,000 annually.

The Statewide Planning and Metropolitan Planning Program, Sections 5303/5304. These programs provide planning assistance to rural and designated urbanized areas with populations over 50,000 persons. There are currently eight areas eligible for assistance: Little Rock, Jonesboro, Fort Smith, Pine Bluff, Texarkana, Hot Springs, Fayetteville/Springdale, and West Memphis. This program is allocated approximately \$1,700,000 annually.

The Job Access Reverse Commute Program, Section 5316. This program has been consolidated into the urban or rural public transit programs, Section 5307 or Section 5311. As a result, detailed data for this program is not included in this document.

New Freedom Program, Section 5317. This program has been consolidated into The Enhanced Mobility of Seniors and Individuals with Disabilities Program, Section 5310. As a result, detailed data for this program is not included in this document.

Program Information

TransLease Program. This program provides funding for public and nonprofit agencies to lease vehicles up to 4 years. Vehicles are released to the lessee when the four year lease is paid. Eligible agencies are those that would normally be eligible for assistance under another federal transit program but have additional needs above existing funding levels.

The Urbanized Area Program, Section 5307. This program provides capital and operating assistance to areas with populations over 50,000 persons. The Section 5316, Job Access and Reverse Commute (JARC) Program is now consolidated into the Section 5307 program for urbanized areas. These funds are for transit systems that are open to the public and may support fixed route and demand response systems. There are currently eight urbanized transit systems in Arkansas: Central Arkansas Transit Authority (CATA), Little Rock; Fort Smith Public Transit, Fort Smith; Hot Springs Intracity Transit, Hot Springs; Jonesboro Economic Transportation System, Jonesboro, Ozark Regional Transit Authority (ORT), Springdale; Pine Bluff Transit, Pine Bluff, and Razorback Transit, Fayetteville. Texarkana Urban Transit District receives funds allocated for Arkansas through the Texas Department of Transportation. This program is allocated \$5,700,000 annually based on population and population density. CATA, ORT and Razorback Transit are allocated approximately \$6,800,000 annually directly from FTA.

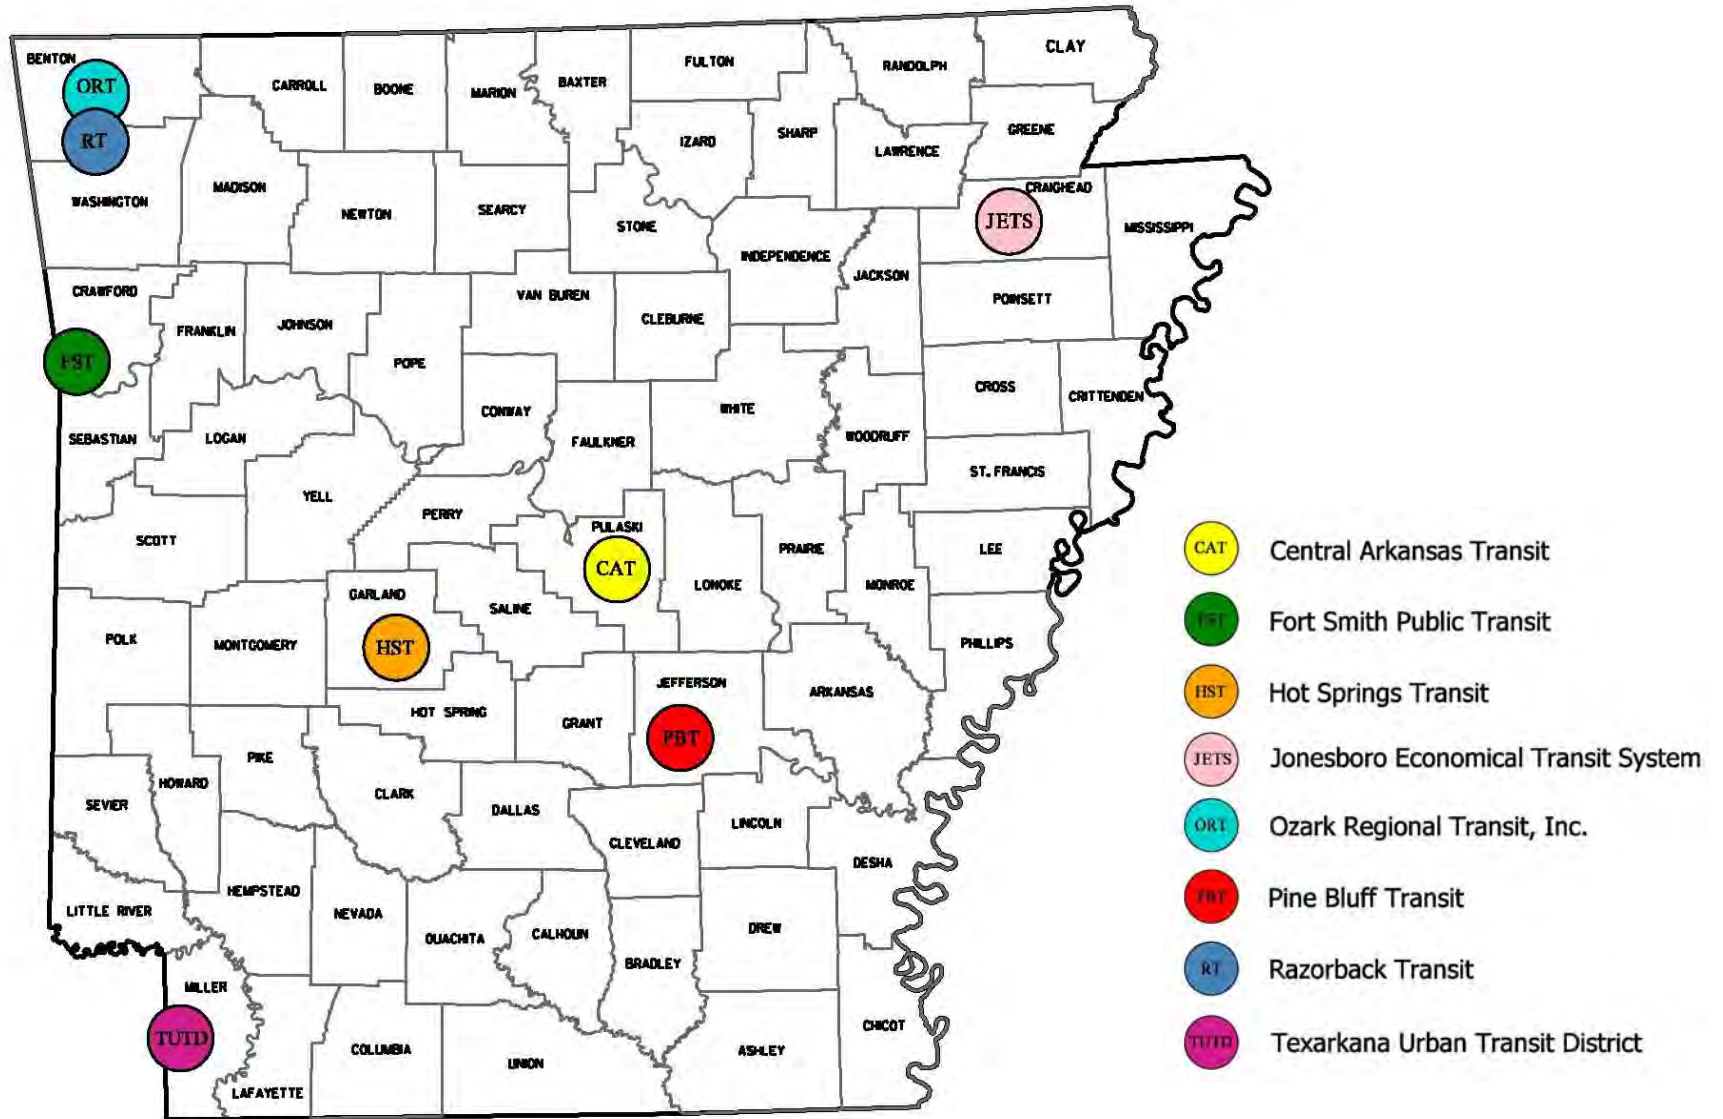

Glossary

Accessible Vehicle:	A vehicle equipped with a wheelchair accessibility package or ramp which allows passengers using wheelchairs to enter, exit, and ride the vehicle.
Americans with Disabilities Act (ADA):	A civil rights law passed by Congress in 1990, which makes it illegal to discriminate against people with disabilities in employment, services provided by state and local governments, public and private transportation, public accommodations and telecommunications.

Transit has been important in Pulaski County's growth since the 1880's. Buses were in local use by 1918, bringing riders to streetcar lines. By 1946, all streetcars had been replaced by buses. In 1972, Metroplan received Federal funding to purchase the assets of the private corporation. To better support the transit system, the Central Arkansas Transit Authority, CAT as it is known today, was created in 1986 by an Interlocal Agreement chartering CAT as a public corporation. Today, CAT has 20 fixed routes and 3 express routes serving Jacksonville, Gravel Ridge, Sherwood, Maumelle, Oak Grove and Highway 10 to Roland. Its paratransit division, Links, provides mobility to persons who are prevented by disability from using regular fixed-route buses.

River Rail, a 3.4 mile streetcar system opened its first phase in November 2004. The second phase opened in February 2007 and extended services to the Clinton Presidential Center and Heifer, International.

Visit CAT's River Cities Travel Center, the major transfer hub.

Ozark Regional Transit has been providing transportation in Northwest Arkansas since 1978. Our Board of Directors consists of regional leadership and we continue our mission to provide demand-response transportation to those who do not or cannot drive. In July 2002, ORT began our first fixed route service in Fayetteville under the Job Access and Reverse Commute (JARC) with funding from the Federal Transit Administration (FTA). In the fall of 2005, we converted or added a total of 6 new fixed routes in Bentonville, Rogers, Springdale, and Fayetteville. Currently we have 11 buses on 10 fixed routes and will set new ridership records. Visit our website at www.ozark.org.

The City of Pine Bluff has had a transit system since 1870, when it was operated by the private sector. It is the oldest transit system in the State. In 1974, Pine Bluff Transit became a city owned and operated transit system. The system consists of eight fixed routes and an American with Disabilities Act of 1990 (ADA) paratransit service.

The main short range and long range goals of the transit service is to provide services to those citizens dependent on the transit system for transportation. The objective is to provide transportation to places of employment, shopping, medical services, social services, educational services and recreation facilities. The service area has been designed to provide service to all areas of the City.

Service Area: Clay, Lawrence and Randolph Counties

In 1975, BRAD started a Public Transportation Program to provide bus service to the public in Clay, Lawrence and Randolph Counties. This program received National Model Project recognition. BRAD Public Transit currently operates five days a week in Corning, Pocahontas, Walnut Ridge and Hoxie. Transit serves all ages ranging from children to senior citizens. There are no income guidelines and all of the buses are equipped with wheelchair lifts.

Participants are picked up at their door and taken wherever they would like to go within the city limits. Public Transit also makes eight scheduled trips into the three county area monthly picking up participants in outlying areas and providing them transportation to the larger towns for shopping, doctor appointments, etc. The program also schedules day trips several times a month with area nursing homes to enable the residents to leave the facility a few hours.

South Central Arkansas Transit (SCAT) was one of the early programs at Central Arkansas Development Council (CADC). Started in 1975, the rural public transportation system was one of the first funded nationally as a Section 147 demonstration program. In 1989, SCAT was one of the first in the state to participate in the Greyhound Rural Connection Program. SCAT's service center in Malvern serves as the bus depot and CADC receives reimbursement for facilitating the movement of its passengers in Dallas, Hot Spring, Ouachita & Union Counties. SCAT fills a very definite need in rural Arkansas providing transportation for anyone in the service area. Other services offered are: job transportation, shuttle service, Senior Centers, Day Care, and medical routes.

Service Area: City of Eureka Springs, Carroll, Benton & Washington Counties

Tucked away in the hills of Northwest Arkansas, Eureka Springs truly is America’s Victorian Village. In 1970 the entire City was added to the National Register of Historic Places. The District now has over 33 Significant and 250 Contributing Structures located within its boundaries, it is the heart and soul of Eureka Springs.

Much of the Historic District as well as the rest of Eureka Springs can be visited in comfort and with convenience using the City’s Transit System. Operating year-round, we have our vintage-looking trolleys and mini-busses that carry passengers over routes that crisscross the City in every direction. Each route is color coded, making getting around our winding, twisting and narrow streets almost foolproof. Eureka first used public transportation on the 1890’s and now in the 2000’s we still are.

Southeast Arkansas Transportation (SEAT) started in April, 1993, with three vans, three drivers, and a handwritten daily schedule that covered less than one page per van. Today, SEAT makes an average of 1100 one way trips per day, employs 128 people including 97 well trained professional drivers operating 101 vans, with 80 being accessible for riders with physical disabilities.

SEAT was named the 2008 Rural Community Transportation System of the Year by the Community Transportation Association of America (CTAA). SEAT offers demand-response rural public transportation service for citizens of all ages and serves 14 counties in Southeast Arkansas. Riders may access services by riding SEAT locally or from Southeast Arkansas anywhere within our service area and return. SEAT also offers round trip transportation into Mississippi and Louisiana on a limited basis. SEAT coordinates services with Pine Bluff Transit as needed.

Call Customer Service at least 48 business hours in advance to request a ride. Riders are scheduled on a first- come, first- serve basis when space is limited.

Western Transit System (WTS) initiated public transportation service in 2011. Sponsored by the Area Agency on Aging of Western Arkansas, Inc., WTS recognized the transportation needs of all rural residents in its service area. This program offers mobility and connects the citizens of these very rural, economically depressed regions with various kinds of services including medical, social, nutritional, and recreational as well as shopping, bill paying, and employment opportunities.

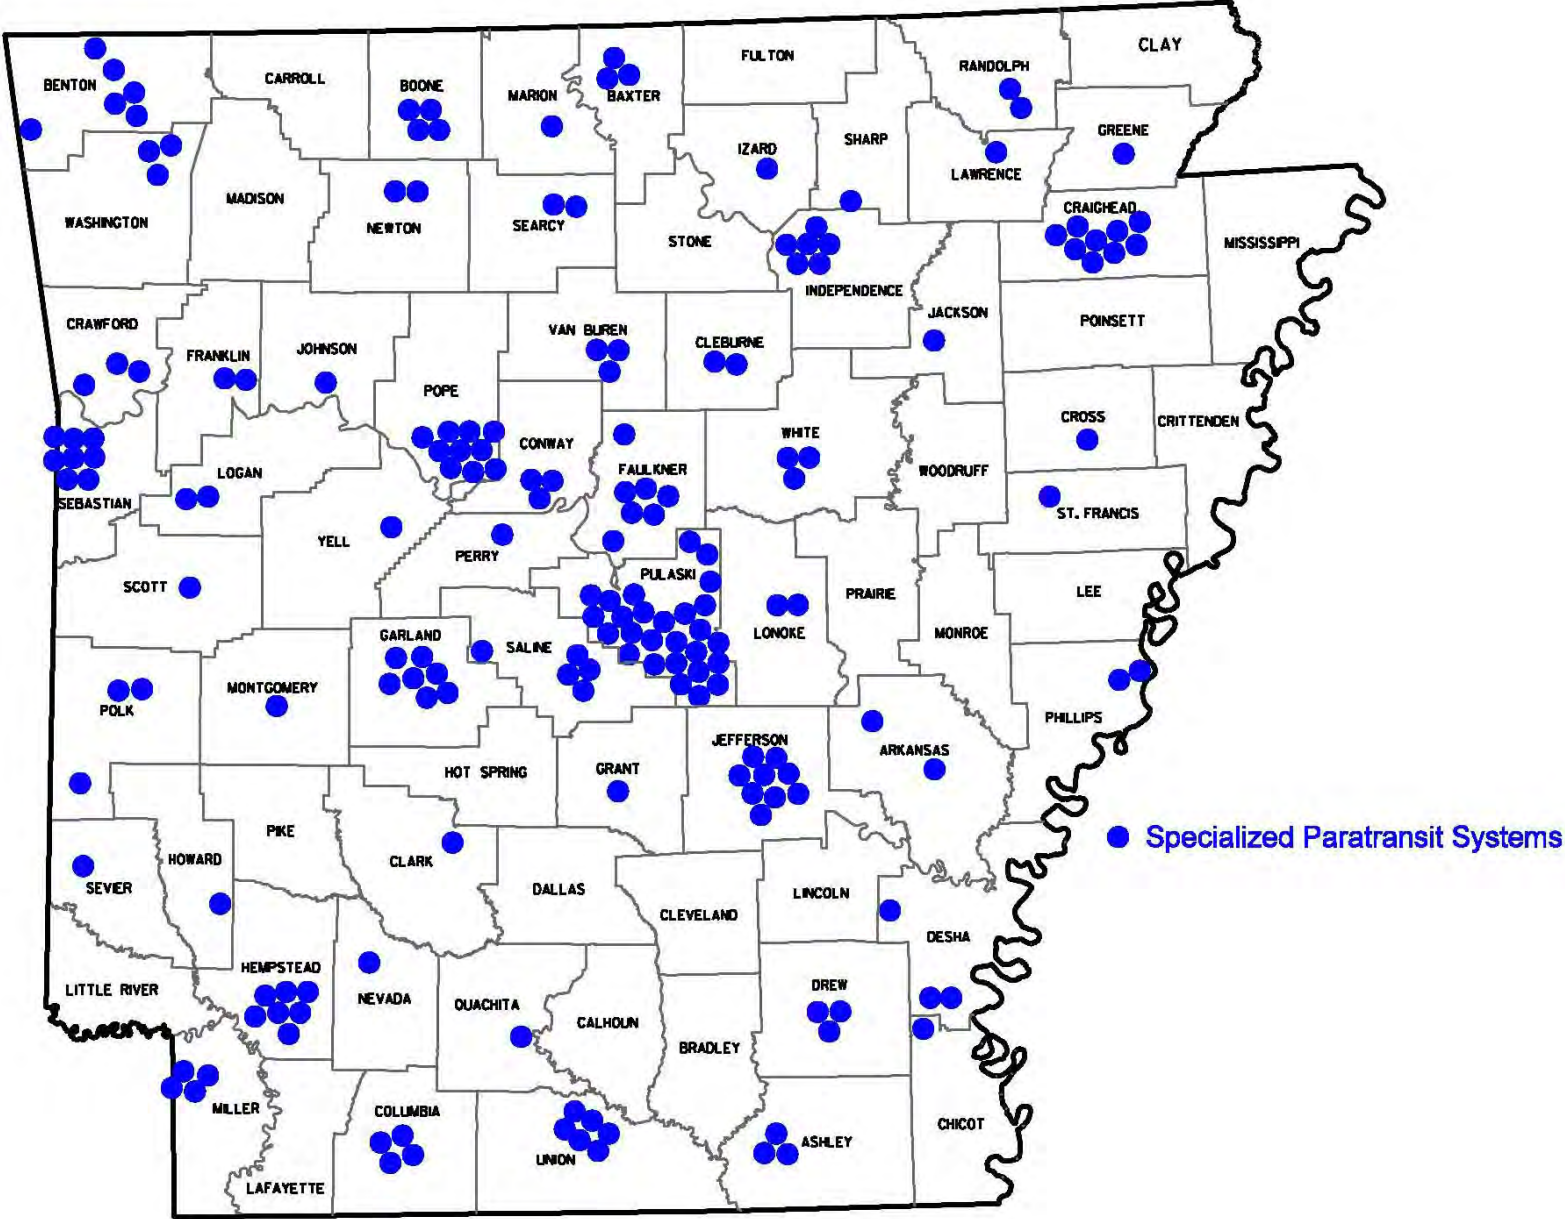

By expanding its mission from services to seniors, WTS will improve access to transportation in rural areas to all citizens which will in turn make it possible for opportunities to seek employment, shopping and medical and personal services.

Intercity Transportation Service

INTERSTATE COMMON CARRIERS

- Greyhound
- Jefferson
- Kerrville

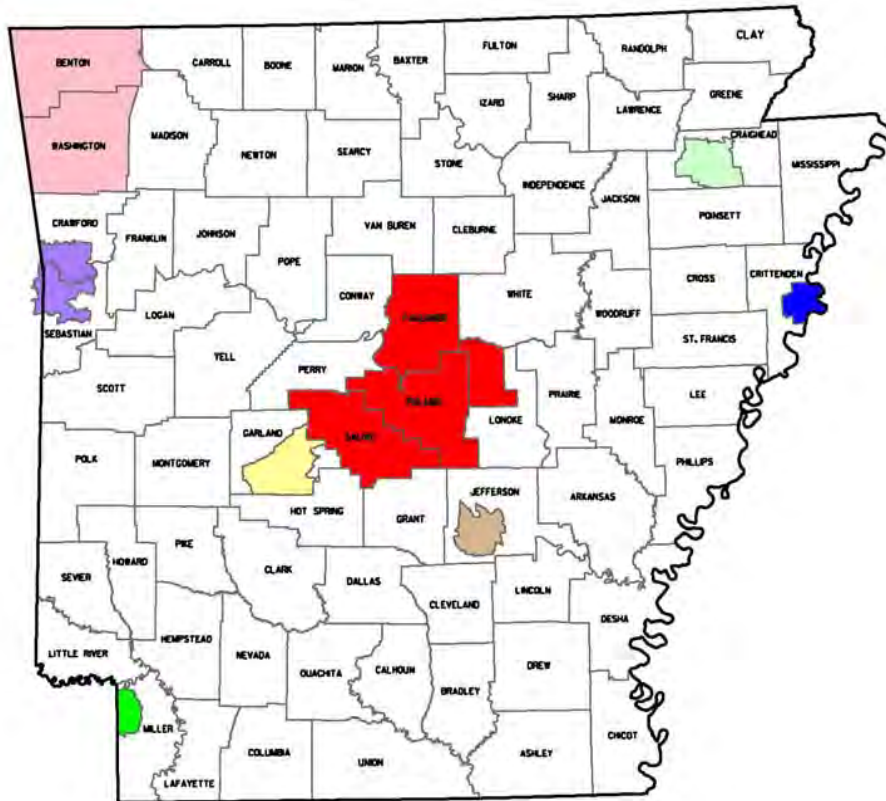

SEC. 5311 INTRASTATE RURAL CARRIER

- South Central Ark. Transit

The Section 5311 Program allows funding to private for-profit agencies providing intercity transit service. In November, 2006, Jefferson Lines initiated service in Arkansas under the Section 5311 Program. Greyhound Lines and Kerrville Bus Company were awarded Section 5311 Program funds during 2008. In addition, one Arkansas rural public transit systems provide connector service to the intercity bus carriers.

Ridership in 2012 on intercity bus routes was approximately 104,281 passengers. Trips were primarily for visiting family or friends and averaged a distance of 175 miles. Capital, operating and marketing assistance totaled approximately \$1,646,000 was used to support intercity bus service.

Metropolitan Planning Organizations (MPO)

In 1973, the Federal Transportation Act required that each urbanized area (area with 50,000 or more population) establish a Metropolitan Planning Organization (MPO). An MPO is an organization of primarily local elected officials who provide a forum for local decision-making on transportation issues of a regional nature.

Under Section 5303, MPOs receive funds to support the cooperative, continuous and comprehensive planning program for making transportation investment decisions in MPO areas. Funds are apportioned by a formula to States that includes each State's urbanized area population in proportion to the urbanized area population for the entire Nation. These funds, in turn, are sub-allocated by States to MPOs by a formula that considers each MPO's urbanized area population.

U.S. Department of Transportation (USDOT) and Arkansas State Highway & Transportation Department (AHTD) are participating agencies. The MPOs in Arkansas funded under Section 5303 are located in the following areas:
