SUBRECIPIENT MONITORING

The NWARPC operates as a pass-through of FTA funds to subrecipients. NWARPC monitors subrecipients Ozark Regional Transit, Inc. (ORT) and the University of Arkansas Razorback Transit.

In order for NWARPC to satisfy FTA subrecipient monitoring requirements, the Northwest Arkansas Regional Planning Commission Subrecipient Monitoring Guide for FTA Section 5339 Grants was developed in Spring 2017. The purpose of the Monitoring Guide is to ensure that all technical specifications and contract requirements are met by subrecipients and to monitor compliance with FTA requirements for the life of FTA Section 5339-funded projects that are maintained by subrecipients.
NWARPC began the subrecipient monitoring procedure in Summer 2017 by conducting an on-site visit at the Razorback Transit and ORT facilities, and also received from the transit agencies the requested documents to enable NWARPC to conduct a “desk review”.

Staff completed the draft Compliance Review Reports for both transit agencies and transmitted the drafts to each agency for comments. Both transit agencies reviewed and submitted comments on their individual draft Compliance Review Report.

The 2017 subrecipient monitoring process concluded with staff sending an individual 2017 Final Compliance Review Report to each agency in mid-September 2017. The Final Report was based on the findings noted in the NWARPC desk review of submitted documents and the site visit.

Ongoing subrecipient monitoring activities will continue until all FTA Section 5339 buses have been retired. Monitoring activities will include an annual invoice review and annual Title VI Program reporting by the subrecipient. Staff will notify the agencies when these activities will take place for upcoming years.

VIII. PROMOTION OF INCLUSIVE PUBLIC PARTICIPATION

(1) NWARPC PUBLIC PARTICIPATION PLAN

NWARPC’s updated Public Participation Plan (PPP) was approved in September 2014. The PPP was developed to ensure that the transportation planning process complies with federal requirements for public involvement and participation. The PPP states, “This document outlines procedures that are designed to promote and encourage public participation and involvement in the transportation planning process. These procedures will provide opportunities for citizens, employers, and transportation providers to contribute ideas and opinions early and at every stage of the planning process. Efforts will be made to assure participation by traditionally underserved individuals, including elderly, low income and minority individuals, persons with disabilities, and persons with limited English proficiency.”

The PPP further states that, “The NARTS (NWARPC) will, to the extent reasonable and practical, ensure that the PPP will address the requirements for MPO public involvement as identified in 23 CFR 450.316 Interested parties, participation, and consultation.” The PPP also addresses the requirements of the Moving Ahead for Progress in the 21st Century (MAP-21) and the Fixing America’s Surface Transportation (FAST) Act.

The policies and strategies detailed in the PPP do not specifically address the requirements of Title VI. However, the PPP does include a procedure for addressing complaints from the general public relating to discrimination due to a disability.
(2) THE NWARPC PUBLIC PARTICIPATION AND OUTREACH POLICIES ENDEAVOR TO:

- Provide ongoing and timely information about transportation issues and processes to NWA citizens, affected public agencies, representatives of transportation agencies, private providers of transportation, other interested parties and segments of the community affected by transportation plans, program and projects;
- Provide reasonable public access to technical and policy information used in the development of the Metropolitan Transportation Plan (MTP), the Transportation Improvement Plan (TIP), and other appropriate transportation plans and projects;
- Conduct open public meetings where matters related to the Federal-aid highway and transit programs and are being considered;
- Give adequate public notice of public participation activities and allow time for public review and comment at key decision points, including, but not limited to, development and approval of plans and TIPs, and other appropriate transportation plans and projects;
- Provide additional opportunity for public comment if the final transportation plan or TIP differs significantly from the one which was made available for public comment by NWARPC and/or raises new material issues which interested parties could not have reasonably foreseen from the public involvement efforts;
- Solicit the opinions of those under-served by existing transportation systems, including but not limited to, the transportation disadvantaged, minorities, elderly, low-income households, and people with disabilities;
- Periodically review adopted public comment processes to determine their effectiveness in assuring that the process provides full and open access to all;
- Coordinate the public participation process with statewide public participation process wherever possible to enhance public consideration of the issues, plans and programs, and reduce redundancies and cost;
- Improve the effectiveness of the Public Participation Plan (PPP):
  - With an annual staff review.
  - A review by the TAC and NWARPC/Policy Committee occurring as part of the regular update cycle for the Metropolitan Transportation Plan (MTP).

(3) PUBLIC PARTICIPATION – AN ONGOING ACTIVITY OF NWARPC:

Public participation and input is an integral aspect of one-time activities such as specific corridor studies, and of regularly repeated activities such as NWARPC meetings, the Metropolitan Transportation Plan updates and the TIP process. Participation techniques employed by NWARPC include:

- **MEETING LOCATIONS** – NWARPC, whenever feasible, holds public meetings, hearings or forums at a site convenient to potentially affected citizens and/or on a public transportation route.
- **VISUALIZATION TECHNIQUES** – NWARPC employs visualization techniques to aid in the understanding of transportation related documents. These visualization products are available on the NWARPC web page and at public forums and meetings.
- Provides on-line maps of the area that presents all appropriate information pertaining to documents such as the Metropolitan Transportation Plan elements and proposed amendments, TIP projects and proposed amendments.
- Employs maps, GIS products, charts, graphs, photo interpretation, artist renderings, physical models, and/or computer simulation.

- **NWARPCE WEBSITE** – This site was established to provide basic information about the MPO/transportation process, NWARPCE members, meeting times, and contact information. The site also includes information about specific projects undertaken by NWARPCE, such as the Unified Planning Work Program (UPWP), TIP, MTP, PPP, and transit studies. Other activities are also accessible on the website. All publications and work products are available electronically to the public and in hard copy at the NWARPCE offices.

- **MASTER DATABASE** – NWARPCE maintains a database of federal, state and local agencies, organizations, committee members and interested public. The database is used for maintaining up-to-date committee membership and special interest group lists, and is used to establish and maintain a list of email contacts for electronic meeting notification and announcements. NWARPCE works with community organizations to help distribute information to identified target audiences when planning studies are conducted by NWARPCE.

- **NOTICES OF MEETINGS** – Notices of all NWARPCE/Policy Committee and TAC meetings, complete with date, time, location and preliminary agendas are forwarded to members, media and other interested parties, customarily, at least one week prior to the date of the meeting. Public meetings on specific issues may be held independently or at the same time as NWARPCE/Policy Committee and/or TAC meetings. Notices of these public meetings are subject to legal notice requirements as stated below.

- **LEGAL NOTICES** – NWARPCE publishes a legal notice in the newspaper of greatest general circulation for any public meeting where a decision could be made by the TAC or NWARPCE/Policy Committee. Additionally, legal notices are published for many other meetings, public comment periods, public input meetings, etc. Display ads are also published for certain meetings and activities in the English and local Spanish newspapers.

- **PRESS RELEASES** – Formal press releases are sent to local media (newspaper, TV, and radio) to announce upcoming meetings and activities and to provide information on specific issues being considers by NWARPCE/Policy Committee, TAC or other committees.

- **EMAIL ANNOUNCEMENTS** – Meeting announcements and NWARPCE information are emailed to interested persons that have submitted their email addresses to NWARPCE staff.

- **COMMENT FORMS** – Comment forms or cards are often used to solicit public comment on specific issues being presented at a public input meeting. Comment forms can be very general in nature, or can ask for very specific feedback. NWARPCE collects and tracks all comments received.

- **SURVEYS** – Electronic and paper surveys are used when a specific input from the public is desired, or to gather technical data, such as daily travel patterns. NWARPCE collects, compiles, and analyzes all survey information received and incorporates that information into the development of plans and projects.
• **TRANSLATIONS** – Upon request and within reason, NWARPC will provide appropriate language translators for the non-English speaking, as well as translations for the hearing and visually impaired, free of charge.

• **ANNUAL LISTING OF PROJECTS** – Annual production of maps presenting the Annual Listing of Projects (ALOP).

(4) **THE FOLLOWING ACTIVITIES WILL BE INCORPORATED INTO THE NWARPC PUBLIC PARTICIPATION AND OUTREACH PROGRAMS AS WELL AS INTO THE OVERALL PLANNING PROCESS:**

• The NWARPC will undertake efforts to educate, inform and involve the public in area-wide transportation issues and processes. These efforts may include, but are not limited to, the following:

  - Elected officials
  - Local government staff
  - Transportation agencies (transit, airports, rail)

• 14 out of 25 input opportunities were at open-houses or community wide events, such as a farmer’s market or high school football game – affording LEP members of the community to communicate with staff through family member-interpreters.

IX. LIMITED ENGLISH PROFICIENCY PLAN

Individuals who have limited ability to read, write, speak, or understand English are considered to be Limited English Proficient (LEP). NWARPC’s LEP plan addresses the responsibilities of NWARPC to LEP persons. Through this policy, these populations are identified within the Metropolitan Planning Area.

To ensure meaningful access to NWAPRC’s programs and activities, the information was developed using the Four Factor Analysis. This guides NWARPC in determining specific LEP needs. The Four Factor Analysis is an assessment of local populations and considers the following factors:

Factor 1: The number or proportion of LEP persons eligible to be served or likely to encounter an MPO program, activity, or service.
This factor includes an analysis of the 2016 American Community Survey 5-year Estimates for Benton and Washington County in Arkansas and McDonald County in Missouri. Tables for Race, Hispanic or Latino, and Language Spoken at Home by Ability to Speak English were used to identify the area’s LEP population. English and Spanish, respectively, are the top languages identified that are spoken at home by populations 5 years and over.

Factor 2: The frequency with which LEP persons come into contact with a MPO program, activity, or service.
NWARPC does not have any knowledge, documented or otherwise, of LEP persons coming into contact with a NWARPC program or activity.

Factor 3: The nature and importance of the program, activity, or service provided by the program to people’s lives (or “service provided by the MPO to LEP community”).
NWARPC has three main planning documents which identify and direct its transportation activities in the region – the Metropolitan Transportation Plan, the Transportation Improvement Program, and the Unified Planning Work Program. Each of these is publicized to the public for review and a comment period according to the Public Participation Plan.

Factor 4: The resources available to the MPO for LEP outreach, as well as the costs associated with that outreach.
NWARPC has assessed its available resources that could be used for providing LEP assistance. This includes identifying what staff and volunteer language interpreters are readily available, which documents should be translated, taking an inventory of
available organizations that NWAPRC could partner with for outreach and translation efforts, examining which financial and in-kind sources could be used to provide assistance, and what level of staff training is needed.

The complete Limited English Proficiency Plan can be found in APPENDIX A.

XII. DEMOGRAPHIC PROFILE
NWARPC considers the impact that its programs may have on the mobility needs of Title VI population. NWARPC identifies the Title VI population using Census block data, Census Transportation Analysis Zones (TAZs), and other means, including transit agency provided data.

Basic Profile of Northwest Arkansas
The Fayetteville-Springdale-Rogers Metropolitan Statistical Area currently encompasses four counties including Benton, Madison, and Washington Counties in Arkansas and, also, McDonald County to the north in Missouri. The Northwest Arkansas Transportation Study Area (NARTS) consists of Benton and Washington County.

Geography
Benton County
- Covers 880 square miles
- Has 846 square miles of land
- Has 43 square miles of water

Washington County
- Covers 956 square miles
- Has 950 square miles of land
- Has 6 square miles of water

The two counties are divided from north to south by the Old Missouri Road/Butterfield trail that runs along a major watershed divide. On the west, most of the watershed flows into the Illinois River, which flows into Oklahoma. Eastern water flows into the White River basin, which contains the 31,700-acre Beaver Lake.

The Metropolitan Planning Area (MPA) in McDonald County, Missouri is approximately 30.7 square miles. This portion of the county is mainly traversed by US Highway 71 and is largely rural in nature.

Population
Benton County
- 221,339 in Census 2010 population.
- This represents a 43.3 percent increase and an annual growth rate of 3.73 percent.
- On average there were 6,793.3 people per year moving to Benton County since Census day, April 1, 2000.
- Contains nineteen incorporated cities.
- All or part of nine Benton County cities fell within the Census defined Urbanized Area in Census 2010, including the cities of Bella Vista, Bethel Heights, Bentonville, Cave Springs, Centerton, Little Flock, Lowell, Pea Ridge, and Rogers.
- Siloam Springs meets the Census definition of an Urban Cluster.
- Most of the population of Benton County is located along the I-49 corridor.
• The 2012-2016 American Community Survey 5-year estimates the total population to be at 245,231.

**Washington County**
• 153,406 in Census 2000 population.
• 203,065 in Census 2010 population.
• This represents a 28.8 percent increase and an annual growth rate of 2.56 percent.
• On average there were 4,535 people per year moving to Washington County since Census day, April 1, 2000.
• Contains thirteen incorporated cities.
• Nine of these cities fall within the urbanized area criteria. These cities include Elkins, Elm Springs, Farmington, Fayetteville, Greenland, Johnson, Springdale, Prairie Grove, and Tontitown.
• The majority of residents live near the I-49 corridor.
• The 2012-2016 American Community Survey 5-year estimates the total population to be at 219,930.

**Portion of McDonald County**
• The portion of the MPA in McDonald County, Missouri had approximately 2,089 people in the 2010 Census.
• Has approximately 751 housing units recorded during the 2010 Census.
• The Elk River is formed at Pineville, Missouri by the confluence of Big Sugar Creek and Little Sugar Creek.
• Pineville (the county seat for McDonald County), has a total area of 3.11 square miles and is the only incorporated city in the area. It had a recorded population of 791 and 287 households by the 2010 Census Bureau. The 2012-2016 American Community Survey 5-year estimates the total population of Pineville City to be 778.
• Jane is a small community of 301 people in 2010 and is situated on Route 90 at the intersection with US Highway 71. The 2012-2016 American Community Survey 5-year estimates the total population to be 575.

**Demographic Distribution**
• In Benton County, 88.3 percent is white and about 11.7 percent other race than white; in Washington County 78.3 percent is white and 21.7 percent other race than white; and in McDonald County 88.9 percent is white and 11.1 percent is race other than white. The break-down demographics below show the percentage for each race and ethnic group by county.
Benton County race estimates – ACS 2012-2016

Washington County race estimates – ACS 2012-2016
Minority Population Trends
The table below shows an in-migration of Latino or Hispanic population. Between the year 2000 and 2010 the two-county regions’ (Benton and Washington) total population grew by 36.4 percent while the Hispanic population grew from 26,401 to 65,741 or by 149.0 percent. From this it can be seen that the Hispanic population continues to increase at a faster rate than the general population. The Census 2010 Hispanic population figure of 65,741 makes up 15.5 percent of the 424,404 two-county total population. This Hispanic total population ratio is higher in the cities of Northwest Arkansas with an 18.4 percent and 26.7 percent ratio for Washington and Benton County Cities respectively.
The following table shows that while the diversity of the region’s population is increasing rapidly, the total population in absolute numerical terms is still predominantly white.
In the McDonald County portion of the MPA, the majority of the population (1,007 in 2010) is white followed by people of Hispanic origin (about 292 in 2010) and Native American (about 35 people in 2010).

Another increasing minority group in Benton and Washington Counties is the Native Hawaiian or Pacific Islanders, which would include Marshallese Island immigrants. This population grew from 969 in Census 2000 to 4,799 in 2010. This was a significant 395.25 percent increase for one decade.

The graphics below illustrate the racial and minority population mix as estimated by the 2012-2016 American Census Survey 5-year estimates by county.

XIII. MOBILITY NEEDS OF MINORITIES
The mobility needs of minority populations are identified through engagement efforts, data collection, and analysis of available census data, public comment, and other available sources. The policy and guidance for public engagement is established in the NWARPC Public Participation Plan. NWARPC’s policy for public engagement includes, but is not limited to, activities and outreach efforts such as soliciting the opinions of those under-served by existing transportation systems, including but not limited to minorities and periodically reviewing adopted public comment processes to determine their effectiveness in assuring that the process provides full and open access to all, through surveys, public meetings, open houses, public notices, website posting, emails and public comments. Data analysis through GIS and the Northwest Arkansas Travel Demand Model are key techniques used to identify and engage underrepresented populations.

XIV. PUBLIC TRANSPORTATION SYSTEMS
Within the NWARPC area there are two public transit systems, Razorback Transit and Ozark Regional Transit, Inc. (ORT), as well as a number of human service agencies that provide transit options for specific populations.

In January 2013 the ARDOT published the Arkansas Statewide Transit Coordination Plan: 2012 (TCP). The TCP replaces the sixteen-separate local transit coordination plans that were developed in 2007 and 2008 as a result of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). In Northwest Arkansas, the TCP replaces the NWA Public Transit-Human Services Coordinated Transportation Plan (Coordination Plan). ARDOT is currently in the process of updating the 2012 Statewide Coordination Plan.

The federal transportation legislation, Moving Ahead for Progress in the Twenty-First Century (MAP-21), requires that projects for certain FTA programs be derived from a locally developed, coordinated public transit-human services transportation plan. The TCP applies to Section 5310: Enhanced Mobility of Seniors and Individuals with Disabilities Program, which is a consolidation of the old Section 5310 and Section 5317 programs, and includes the New Freedom program. These requirements are aimed at improving transit services for persons with disabilities, older adults and individuals with low incomes and ensuring that communities are coordinating transit resources provided through multiple Federal programs.

For guidance on the administration and preparation of grant applications for the Enhanced Mobility of Seniors and Individuals with Disabilities under 49 U.S.C. 5310, FTA has issued Circular 9070.1G. This revision of an earlier circular incorporated provisions of MAP-21 and includes the most current available guidance as of the date of publication (6-6-14).
XV. TITLE VI PROGRAM ADOPTION
NWARPC is the governing body that adopts all policies and planning documents. The signed Resolution #2018-01 shall provide verification that this Title VI Program has been adopted.

XVI. REQUIREMENTS FOR PROGRAM ADMINISTRATION
All funds processed through the NWARPC must be spent on projects in accordance with the Metropolitan Transportation Plan (MTP). The MTP includes an environmental justice review of the constrained project list, so staff and member jurisdictions can be aware of potential issues ahead of programming projects in the Transportation Improvement Program.

Transit Programs
Razorback Transit and Ozark Regional Transit, Inc., the two providers of publicly owned public transportation service in the urbanized area, are the recipients for Section 5307 and Section 5339 funding. The project listings of the transit organizations are consistent with, and derived from the TIP and approved by the NWARPC/MPO Policy Committee.

APPENDIX C: LIMITED ENGLISH PROFICIENCY RESOURCES
INTRODUCTION

“Individuals, who have a limited ability to read, write, speak, or understand English are limited English proficient, or ‘LEP.’ According to the 2000 U.S. Census, more than 10 million people reported that they do not speak English at all, or do not speak English well. The number of persons reporting that they do not speak English at all or do not speak English well grew by 65 percent from 1990 to 2000. Among limited English speakers, Spanish is the language most frequently spoken, followed by Chinese (Cantonese or Mandarin), Vietnamese, and Korean.”

“Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d et seq., and its implementing regulations provide that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity that receives Federal financial assistance. The Supreme Court, in Lau v. Nichols, 414 U.S. 563 (1974), interpreted Title VI regulations promulgated by the former Department of Health, Education, and Welfare to hold that Title VI prohibits conduct that has a disproportionate effect on LEP persons because such conduct constitutes national origin discrimination.”

“Executive Order 13166, ‘Improving Access to Services for Persons with Limited English Proficiency,’ reprinted at 65 FR 50121 (August 16, 2000), directs each Federal agency to examine the services it provides and develop and implement a system by which LEP persons can meaningfully access those services. Federal agencies were instructed to publish guidance for their respective recipients in order to assist them with their obligations to LEP persons under Title VI. The Executive Order states that recipients must take reasonable steps to ensure meaningful access to their programs and activities by LEP persons.”

“The U.S. DOT published revised guidance for its recipients on December 14, 2005. This document states that Title VI and its implementing regulations require that DOT recipients take responsible steps to ensure meaningful access to the benefits, services, information, and other important portions of their programs and activities for individuals who are Limited English Proficient (LEP) and that recipients should use the DOT LEP Guidance to determine how best to comply with statutory and regulatory obligations to provide meaningful access to the benefits, services, information, and other important portions of their programs and activities for individuals who are LEP.”

“The FTA references the DOT LEP guidance in its Circular 4702.1A, “Title VI and Title VI-Dependent Guidelines for FTA Recipients,” which was published on April 13, 2007. Chapter IV part 4 of this Circular reiterates the requirement to take responsible steps to ensure meaningful access to benefits, services, and information for LEP persons and suggests that FTA recipients and subrecipients develop a language implementation plan consistent with the provisions of Section VII of the DOT LEP guidance.”
The Northwest Arkansas Regional Transportation Commission (NWARPC) MPO is the federally designated planning organization that serves local units of governments in Benton, Madison, and Washington Counties, Arkansas and Pineville and a portion of McDonald County in Missouri. As well as being the regional planning organization, NWARPC serves as the region’s Metropolitan Planning Organization (MPO). Furthermore, the NWARPC is the Designated Recipient for FTA grant programs for the Fayetteville-Springdale-Rogers Urbanized Area.

The MPO serves as a forum for cooperative transportation decision-making by state and local governments, and regional transportation and planning agencies. MPO’s are charged with maintaining and conducting a “continuing, cooperative, and comprehensive” regional transportation planning and project programming process for the MPO’s study area.

The Northwest Arkansas Regional Transportation Study area (NARTS) is the cooperative effort by participating governmental units, the Arkansas Department of Transportation (ARDOT), transportation and transit providers, and other interested parties to develop the long-range transportation plan for the metropolitan area.

Additionally, the region was designated as a Transportation Management Area (TMA) in 2013. The TMA includes Benton and Washington Counties and a portion of McDonald County, Missouri.

The NWARPC includes local elected and appointed officials from Benton and Washington Counties, Arkansas and McDonald County, Missouri:

Northwest Arkansas Regional Planning Commission – Metropolitan Planning Area, FHWA Adjusted Urban Area Boundary and US Census Bureau Urbanized Area Boundaries Map
FOUR FACTOR ANALYSES

NWARPC has conducted the following analysis to address the requirements under Title VI of the Civil Rights Act of 1964. The purpose is to ensure that no person on the grounds of race, color, or national origin, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal financial assistance from the Federal Transit Administration (FTA).

NWARPC has implemented the following steps to determine if specific languages are coming into contact with NWARPC services and, if so, identify necessary steps needed to ensure meaningful access by LEP persons to its programs and services.

FACTOR 1: THE NUMBER OR PROPORTION OF LEP PERSONS ELIGIBLE TO BE SERVED OR LIKELY TO ENCOUNTER AN MPO PROGRAM, ACTIVITY, OR SERVICE.

The NWARPC has had very limited contact with LEP persons. In recent history, there has been no contact at meetings, through Commission or committee members, through phone contact, or by personal visit. Website access is unknown. Based upon the historical evidence of no language assistance requests, it is determined that NWARPC’s programs and services directly serve very few LEP populations.

“SAFE HARBOR” – The FTA has established a “safe harbor” regarding the responsibility to provide translation of vital documents for LEP populations. This safe harbor is based upon the number and percentages of the service area-eligible population that are LEP. According to the safe harbor rule, FTA expects translation of vital documents to be provided when the eligible LEP population in the service area exceeds 1,000 people or if it exceeds 5 percent of the eligible population. Vital documents include complaint procedures and forms, notice of a person’s rights under Title VI, public notification of meetings and events. The Spanish speaking population is the largest LEP population in Benton County (10.1%), Washington County (12.7%), in Arkansas and in McDonald County, Missouri (8.8%).

Oral language and translation of vital information/documents will be provided at no cost to any one that requests translation. (See B. LANGUAGE ASSISTANCE MEASURES/STAFF TRAINING below.)

Note: The U.S. Census Bureau information from the 2012-2016 American Community Survey (ACS) was used in the analysis of NWARPC area LEP persons.
Table 1 and Figure 1 below illustrate the language spoken by ability to speak English for the population 5 years and over by ACS estimates for the 2012-2016 5-year periods. The data summarizes totals from Washington and Benton County, Arkansas and McDonald County, Missouri. The entire population of McDonald County, Missouri was utilized for the following tables and graphics as being the best available data for the portion of McDonald County in the NARTS MPA since other population data was not available at this geography level.

Table 2 shows the percent of population 5 years and over who are language speakers who speak a language other than English at home from the ACS 2012-2016 5-year estimates. This table identifies population 5 years and older that speak another language than English at home and the level of English skills and it also provides data to infer the level of potential language needs in these populations. The percentages of these language speakers are also illustrated in Figure 2, Figure 3 and Figure 4, by county.

Figure 3: Percent of specified language speakers (Population 5 years and over) in Washington County
Table 3 and Figure 5 illustrate the household language by household limited English speaking status from the ACS 2012-2016 5-year estimates. A "limited English speaking household" is one in which no member 14 years old and over (1) speaks only English or (2) speaks a non-English language and speaks English "very well." In other words, all members 14 years old and over have at least some difficulty with English. By definition, English-only households cannot belong to this group. Previous Census Bureau data products have referred to these households as "linguistically isolated" and "Households in which no one 14 and over speaks English only or speaks a language other than English at home and speaks English 'very well'. The data also identifies the languages spoken in the household. The total limited English-speaking households percentage are at highest (5%) in Washington County and at around 3% for Benton and 3.4% in McDonald County. Out of these households, Spanish, and Asian and Pacific languages are the most spoken languages in all three counties.

Table 3: Total and Percent of households of limited English speaking status (Population 14 years and over)
FaCTOR 2: THE FREQUENCY WITH WHICH LEP INDIVIDUALS COME INTO CONTACT WITH AN MPO PROGRAM, ACTIVITY, OR SERVICE.

NWARPc does not have any knowledge, documented or otherwise, of LEP persons coming into contact with a NWAPRC program, activity, or service, outside of the 2010 Long Range Plan Survey, which was printed in Spanish and completed by 114 persons and the NWA 2040 Metropolitan Transportation Plan Public Opinion Survey, which was printed in Spanish, and completed by 7 people. The surveys were made available on the NWARPc webpage and as hard copies distributed throughout the region via public libraries, city halls, health care clinics, civic centers and at all public input meetings. A summary and analysis on community input through the Public Opinion Survey is available at http://nwarpc.org/wp-content/uploads/2016/07/APPENDIX-A.pdf.

FaCTOR 3: THE NATURE AND IMPORTANCE OF THE PROGRAM, ACTIVITY, OR SERVICE PROVIDED BY THE MPO TO LEP COMMUNITY.

NWARPc has three main planning documents which identify and direct NWARPc’s transportation activities in the region:

- The Metropolitan Transportation Plan (MTP), which provides direction for transportation investments twenty years in the future.
  - While NWARPc has not directly solicited LEP community input on the nature and importance of the program, activity or service provided by the MPO to the LEP community, completed Spanish language public opinion surveys aid in identifying which types of transportation alternatives recommended in the MTP have value to the LEP community.
• The Transportation Improvement Program (TIP) is a schedule of short-range transportation investments and activities intended to be implemented through a combination of state, federal, and local funding.
• The Unified Planning Work Program (UPWP) outlines planning tasks and the budget for each fiscal year.

**FACTOR 4: THE RESOURCES AVAILABLE TO THE MPO AND OVERALL COSTS**

NWARPC has assessed its available resources that could be used for providing LEP assistance. This includes identifying what staff and volunteer language interpreters are readily available, which documents should be translated, taking an inventory of available organizations that NWAPRC could partner with for outreach and translation efforts, examining which financial and in-kind sources could be used to provide assistance, and what level of staff training is needed. The LEP Resources documentation, including LEP of interpreters and organizations can be reviewed at the end of this section.

**PLAN FOR ASSISTING PERSONS OF LIMITED ENGLISH PROFICIENCY**

NWARPC developed the plan outlined in the following section for assisting persons of limited English proficiency. **NWARPC will assist any persons with language translation free of charge, given a reasonable amount of time.**

**A. HOW TO IDENTIFY A LEP PERSON WHO NEEDS LANGUAGE ASSISTANCE**

Tools to help identify persons who may need language assistance:
- Staff will have on hand the “I speak” card printed from the following website: [http://www.lep.gov/ISpeakCards2004.pdf](http://www.lep.gov/ISpeakCards2004.pdf)
- Examine records requests for language assistance from past meetings and events to anticipate the possible need for assistance at upcoming meetings;
- When NWARPC sponsored workshops or conferences are held, set up an attendance sheet table, have a staff member greet and briefly speak to each attendee. To informally gauge the attendee’s ability to speak and understand English, staff will ask a question that requires a full sentence reply;
- Though language needs may not be met at the current meeting or event, an inventory of those needs will help staff plan for language needs at a future meeting;
- Post a notice of available language assistance in the NWARPC reception area.

**B. LANGUAGE ASSISTANCE MEASURES/STAFF TRAINING**

NWARPC:
- Currently, no substantive documents are available in a language other than English; the NWAPRC website may be translated into a number of different languages using Google Translate.
- Has translated the following into Spanish –
  - Title VI Notice to the Public.
  - Title VI Complaint Procedures and Form.
  - Notice in every document that interpretation is available.
  - No staff member speaks Spanish; other resources for interpreters includes a list of interpreters that staff has on hand and can be used (see APPENDIX C).
ORT has several Spanish interpreters and Pacific Islanders (Marshallese interpreters) that are available for NWARPC use.

There are a number of Universities and Colleges in the area that have foreign language departments. These can be used as a resource if need be.

Arkansas Relay, a telephone connection service, offers a Spanish Relay service. Relay users can type in Spanish and the conversations will be relayed in Spanish.

- Para llamadas en espanol, marque el 866-656-1842.
- Para llamadas en ingles, marque el 711 o directamente al 800-285-1131.

Training – All NWARPC staff will be provided with the LEP plan and will be educated on procedures and services available. Annual training will take place in the first two months of every new fiscal year. This information will also be part of the new hire orientation process. Training topics may include –

- Understanding the Title VI LEP responsibilities;
- What language assistance NWARPC offers;
- How to access an interpreter;
- Documentation of language assistance requests;
- How to handle a complaint;
- The importance of educating subrecipients on NWARPC’s LEP program responsibilities and their obligation to provide language assistance.

Outside these measures, NWARPC has limited resources and will, to the extent possible, ensure LEP individuals have the opportunity to participate in transportation planning. All translation is free.

C. PROVIDING NOTICE OF AVAILABLE LANGUAGE SERVICE TO LEP PERSONS

NWARPC will post signs that language assistance is available in public areas such as the reception area or public notice bulletin board, as well as the web site (see the LEP Resources at the end of this section)

D. OUTREACH TECHNIQUES

- If staff knows that they will be presenting a topic that could be of potential importance to an LEP person or if staff will be hosting a meeting or a workshop in a geographic location with a known concentration of LEP person, staff will have meeting notices, fliers, advertisements, and agendas contain a notice, in Spanish, of language service availability with notification in advance of the meeting.

- When running a general public meeting notice, use the phrase “Si necesita informacion en otro idioma, comuniqese Celia Scott-Silkwood, cscott-silkwood@nwarpc.org or 479-751-7125, cuando menos 48 horas antes de la junta”, which asks persons if information is needed in another language to make arrangements with NWARPC within two days of the meeting date.

E. MONITORING AND UPDATING THE LEP PLAN

This plan is designed to be flexible and is one that can be easily updated. At a minimum, NWAPRC MPO will follow the Title VI program update schedule for the LEP plan.

Updates should examine plan components such as:

- How many LEP persons were encountered?
- Were their needs met?
- What is the current LEP population in the region?
- Has there been a change in the types of languages where translation services are needed?
• Is there still a need for continued language assistance for previously identified NWARPC programs?
• Are there other programs that should be included?
• Has NWARPC’s available resources, such as technology, staff, and financial cost, changed?
• Has NWARPC fulfilled the goals of the LEP plan?
• Were there any complaints received?
• Were any comments or requests from the public participation process made that would impact the LEP plan?

F. DISSEMINATION OF THE NWARPC LIMITED ENGLISH PROFICIENCY PLAN
NWARPC will post the LEP plan on its website http://nwarpc.org. Anyone with internet access will be able to access the plan. For those without personal internet access, all area libraries offer free internet access. Copies of the LEP plan will be provided to the Arkansas Department of Transportation, the Missouri Department of Transportation, the Federal Highway Administration, the Federal Transit Administration, and any person or agency requesting a copy. NWARPC members will be provided a copy of the LEP plan. A hard copy of the plan will be available in the office. An LEP person may obtain copies of the plan upon request.
