Re:

FY 2019 Section 5307 & Section 5339 Program of Projects (2) Fayetteville-Springdale-Rogers, AR-MO Urbanized Area

Dear Mr. Patrick:

As you are aware, the Northwest Arkansas Regional Planning Commission (NWARPC) is the Designated Recipient for FTA grant programs for the Fayetteville-Springdale-Rogers, AR-MO Urbanized Area. NWARPC is also the Metropolitan Planning Organization (MPO) for the region. Pursuant to our responsibilities, we are forwarding herewith, a revised annual Section 5307 Program of Projects (POP) reflecting revised final amounts for FY 2019. The revised amount was \$871 higher than the "final" amount initially published, and which was used in the FY 2019 POP submitted on March 19, 2019. Recipients and the projects to be delivered for fiscal year 2019 are shown. This revised POP replaces the previous version.

Preparation of the POP was in coordination with Razorback Transit and Ozark Regional Transit (ORT)—the two providers of publicly owned public transportation, fixed-route service in the urbanized area. The project listings are consistent with, and derived from the TIP/STIP and approved by the NWARPC/MPO Policy Committee on January 23, 2019. That approval was with the proviso that POP adjustments would be made by the Director, based on the authorized split of funds between providers, upon release of final FY 2019 amounts.

As noted, there will be three different direct recipients for FY 2019 Section 5307 funds. Each will be responsible for filing its individual application(s), and will assume all responsibilities associated with the award of grant funds. Of the total federal amount (\$2,795,486), \$100,871 will be used by NWARPC for comprehensive planning, with the balance (\$2,694,615) to be split at an approximate ratio of 55% (\$1,482,038) to ORT and 45% (\$1,212,577) to Razorback. Detailed listings are shown in the attachment hereto. Also, please note that Section 5339 funds for FY 2019 will be split 50-50 between the two providers. Please note that "Bus Procurement" includes associated support and communications equipment necessary for each piece of new rolling stock to be fully functional and ready for use. Should additional information be required, please advise.

Sincerely

Jeff Hawkins

Director
