

FACT SHEET

Highway 62 and Highway 102

Highway 102B to Highway 94

Study Description

The Arkansas Department of Transportation (ARDOT), in cooperation with the Federal Highway Administration, is conducting a transportation study to assess safety and congestion along Highway 62 and 102 in Centerton, Bentonville, and Rogers between Highway 102B and Highway 94.

Study Background

This study will determine the need for and feasibility of transportation improvements, with special attention being paid to traffic operations. The study will also consider, at a minimum, improving reliability, balancing access and mobility, and improving safety. Consideration will be given to anticipated land use changes in the study area as well as all modes of transportation while developing improvement alternatives.

The study will focus on several intersections along the Highway 62 and 102 study alignment. See other side for study location map.

Public Meetings

Public meetings will be held on Tuesday, February 12, 2019 and at Northwest Arkansas Community College from 4:00 - 7:00 PM and on Wednesday, February 13, 2019 at Reach Church from 4:00 - 7:00 PM. The study will conclude in March 2019.

When will the construction begin?

The Highway 62 and 102 study will provide a master plan of improvements. There are no funds currently identified for construction along this study segment. If funds are identified, a project schedule will be developed that will identify when construction will begin and end.
